

Quality Assurance Manager (Tel Aviv, Israel)

Gauzy is hiring! We are looking for a highly motivated, energetic and experienced Quality Assurance Manager to come join us. If you have the desire to achieve excellence in customer satisfaction and lead continuous improvement initiatives in order to increase the reliability and consistency of our products, solutions and process, we would like to meet you.

Responsibilities:

- Promote quality achievement and performance improvement throughout the organization
- Define, develop and deploy product QA strategy, addressing all phases of product development
- Set QA compliance objectives and ensure that targets are achieved
- Establish standards and clearly define quality methods for the organization
- Interact with R&D and production departments on a root cause failure investigation
- Set up and maintain control and documentation procedures
- Ensure compliance with national and international standards and legislations, such as ISO 9001, VDA 6.3 etc
- Practice risk management methodologies such as FMEA
- Identify and supervise execution of relevant quality related training needs for the production team
- Supervise technical staff in carrying out tests and checks
- Liaise with customers' auditors and ensure the execution of corrective action and compliance with customers' specifications
- Monitor performance by gathering relevant data and producing statistical reports
- Implementation of new supplier evaluation, qualification and supplier quality audits execution

Job Requirements:

- Minimum of 5 years of quality assurance experience in Production Processes within a manufacturing company
- B.Sc. degree in a related discipline such as Electrical or Mechanical Engineering.
- Experience with implementation and administration of QA metrics
- Familiar with ISO 9001:2015 regulation processes and with CAPA and FMEA methodologies
- Excellent problem solving, interpersonal communication and project management skills
- Ability to lead cross organization processes
- Strong technical skills and proficient in MS office Tools particularly MS Excel
- High proficiency in written and spoken English
